A colourful, personalised scrapbook for children to explore a prayer.

## ENDING CHILD POVERTY

1 in 3 children live in poverty in the UK today. Poverty blights children's lives. Child poverty impacts on us all. It is a feature of an increasingly unequal society and a drain on the economy. For Christians and other people of faith, who believe that all people, particularly children, are of equal worth in the sight of God, such inequality of resources and opportunity should be addressed by society.
