

Prayer and Reflection Space Examples

Sutton Veny 'Thinking pebble pathway'

All the children painted a pebble with a word or picture that was meaningful to them.

They then created a thinking pathway, which they can walk through and take a moment of stillness or reflection (guided imagery has been done with each child holding their pebble first).

The pebbles have now been set in a special area, in concrete.

I chose the title 'Caring Hearts'. This picture means that God loves us all the same no matter how we act. My picture is a picture of an angel with hearts around her, showing that God loves us all.
