

The Bishop's Initiative –response

Attached is a file containing two responses to 'Let us Talk', formed by groups in the Parish of Upper Stour.

Sides 1 & 2 are the notes that speak for themselves from an Away Morning in February supported by members from the LCCs and PCC. The concluding sentence suggests that further discussion would be necessary before groups could pursue the ideas.

Side 3 contains the comments from groups of parishioners at the APCM in April, who were given the priorities identified at the Awayday.

While this is Upper Stour's response so far, it is work in progress and working groups will hope to resolve some of the issues in the next few months.
