A technology update from your Finance Support Team

'Virtual services' help is at hand!

A message from Hendy Data Developments:

In the recent weeks we have been very busy in helping churches in a variety of ways from using our free donations software, online training, helping with websites, creating Donate Now buttons and much more.

We offer a free step-by-step guide to adding a Donate Now button - a complete guide to how you can create a Donate Now button and add all of the elements needed to accept online donations through a website or A Church Near You (ACNY) page.

The guide includes:

1. What do I need?
2. What is a merchant account?
3. How do I apply for a merchant account? – with an example application form and how to complete it included
4. How do I generate a Donate Now button?
5. How do I add this to my Website or ACNY page?

Free online finance/ accounts training for MyFundAccounting.online, our online fund accounting software (the online version of Finance Co-ordinator). With APCMs likely to take place in the autumn, Hendy Data Developments are offering this free finance training to help churches with their delayed year-end, and to prepare for their annual meetings as well as continue with their 2020 accounts.

Free online training sessions take place every week, and you can 'attend' as many as you wish. For more details please visit the ['Services' page](#) of our website, which also contains details of how to join the training.

Sample step by step guides:
