

## Climate Sunday Resources

USPG celebrated Climate Sunday on 21<sup>st</sup> February, and churches are invited to celebrate Climate Sunday on any Sunday this year in preparation for COP26 in November. USPG has a sermon from the Revd Shuba Keerthana from the Church of South India and a **Climate Sunday Liturgical Resource** that can be used in your churches or for personal prayer.

The sermon from Revd Shuba and other resources can be downloaded from [this page](#).

## Sustainable Preaching

USPG is also working with a number of other Anglican bodies on a project entitled 'Sustainable Preaching' that looks to provide ecological justice focused sermon notes to accompany the 3 years of the Revised Common Lectionary.

In March 2021 the contribution is from Yuki and the Revd Dick Johnson. They have reflected on the 10-year Anniversary of the Great Eastern Japanese Earthquake, Tsunami and Nuclear Disaster. It will be available on the [Sustainable Preaching website](#) the week beginning the 1st March.
