

From the wider Church

Faith at Home

The Church of England has launched #FaithAtHome in a bid to make prayer a household habit once again.

#FaithAtHome builds on the work of Growing Faith and Everyday Faith to support the faith development and pastoral care of children and young people.

It will feature weekly video content to help families to talk about faith and pray together.

The videos will be led by children, young people, staff and school leaders from across the country.

Over the next 3 months, #FaithAtHome will explore themes including courage, patience, generosity, resilience, love and hope.
