

One Stop Shop

The latest National Guidance for clergy and churches can be found [here](#), along with FAQs, digital resources and online training opportunities.

It is a one stop shop for all the information you need, including practical guidance for funerals, baptisms, and weddings along with a host of answers to other questions you probably have been asking.

There are also digital resources available from this page and over the weeks ahead they plan to offer links to simple daytime prayer and night prayer service, video content – with video services and more content for Holy Week and Easter - and an increasing number of webinars, to help churches stream sermons, events and make the most of social media.
